

VISHVA MOORTHY R

Aspiring Software Engineer | Full Stack Developer

☎ 7448772834

✉ Vishwamoorthy888@gmail.com

📍 45, Nehru nagar Puducherry India

PROFESSIONAL SUMMARY:

Motivated Computer Science undergraduate with hands-on experience in backend development, web technologies, and SEO. Skilled in **Python**, **SQL**, and **REACT/NODE.JS**, with practical exposure through internships and real-world projects.

Proven ability to develop responsive applications, optimize performance, and implement problem solving solutions, including deep learning-based systems like helmet violation detection. A quick learner with a strong interest in building scalable software and continuously improving technical skills.

SKILLS:

Programming Languages:

Python, SQL, JavaScript

Core Concepts:

Database Management Systems (DBMS), Software Development Life Cycle (SDLC)

Tools:

Git, GitHub, VS Code

EDUCATION:

B.Tech (Computer Science and Engineering)

2022-2026

Bachelor of Technology in Computer Science and Engineering (2022–2026) with Cumulative Grade Point Average **CGPA: 7.3**

Higher Secondary

2021-2022

Higher Secondary in vidhya bhavan higher secondary school (class 12 -2022) **percentage : 79.33%**

WORK EXPERIENCE - INTERNSHIPS

Backend Development Intern | Valuenet Technologies ([LINK](#))

2024

- Completed a 1-month backend development internship.
- Worked with databases and web application concepts.

Web Development & SEO Intern | RKS Infotech ([LINK](#))

2025

- Developed responsive web pages using HTML and CSS.
- Improved website performance through debugging and optimization.
- Implemented on-page SEO strategies.

PROJECTS :

Real-time Helmet Violation detection using deep learning ([LINK](#))

2026

Implemented a deep neural network based on the YOLO (You Only Look Once) architecture for object detection, achieving high accuracy in detecting both riders and helmets

Technologies: Python, YOLO, OpenCV, Deep Learning

Supermarket Web Application (E-commerce Clone)

2025

- Developed a full-stack supermarket web application replicating real-world e-commerce functionality.
- Designed and implemented backend services using Python for handling user authentication, product management, and order processing.

Technologies: Python, MySQL, HTML, CSS

Hotel Registration Management System

2025

Developed a hotel management system using HTML, CSS, Python, and MySQL that enables user registration, room booking, and reservation management.

Technologies: Python, MySQL, JavaScript, HTML, CSS

CERTIFICATES AND ACHIEVEMENTS :

TYPEWRITING - First class with Distinction ([LINK](#))

2023

Achieved First Class with Distinction in English Typewriting, reflecting strong documentation and communication capabilities.

POSTER MAKING - First Prize ([LINK](#))

2025

Awarded First Prize in Technical Poster Presentation (2025) for excellence in innovation, problem-solving, and technical communication.

NPTEL - Elite ([LINK](#))

2025

Earned NPTEL Elite Certification in Artificial Intelligence and Deep Learning with a strong understanding of machine learning concepts and neural networks.

IBM Course ([LINK](#))

2025

Completed IBM MySQL course through a domain of "MY SQL" And complete project with a help of my teammates

AREA OF INTEREST:

- | | |
|--------------------------|--------------------|
| • Full Stack Development | • Machine Learning |
| • Frontend Development | • Computer Vision |
| • Database Management | • Problem Solving |
